

COPHP ALUMNI CAREERS

The UW Master of Public Health (MPH) program in Community-Oriented Public Health Practice (COPHP) was founded in 2002, and has graduated 206 students from 2004 to 2016. Our program equips its students with the skills and competencies to be successful in the field of public health, and our alumni work as public health practitioners in communities across the United States and around the world.
